

MADRE • MONTE

South American Roots outfit MADRE MONTE finds inspiration in the myths, folklore and music of Colombia, with a focus on taking these ideas and making art that is contemporary and that expands the Latin-Australian musical and mythical connection.

A tight rhythm section, Afro-Colombian progressions, skankin' guitars, hard hitting horns, lyrics in English and Spanish, and a touch of electronic sounds to top it off all, intertwine to create what is now one of the most sought after Roots act in Australia.

2014 saw Madre Monte teaming up with world-renowned act The Cat Empire for an Australian tour that had them play in front of 30,000 people over 6 weeks and inspired the upcoming album due for release in March 2016.
